

# Our Impact

Taking a closer look

## Collaboration - EUPATICConnect, ENPs, Projects & Partners

Let's explore how our collaborative efforts are making an impact. EUPATICConnect brings together EUPATI Fellows and researchers, while our National Platforms unite local stakeholders to drive community change. By involving a wide range of stakeholders in educational and patient involvement projects, and working closely with our partners, we ensure a diverse perspective in all our initiatives. Below is a more detailed overview of our progress in the collaboration pillar to date.
